South Tangerang, Banten, Indonesia 15423

I am a fresh graduate of Informatics Engineering at Pamulang University. Creative and results-oriented web developer with a passion for crafting innovative digital solutions. Proficient in JavaScript, React, PHP, Laravel, and Python and also regarding computers. Specializing in full-stack development. Skilled at problem-solving, collaboration, or project management. Eager to contribute my expertise to a dynamic team and help build exceptional web experiences.

EXPERIENCES

Indonesia University of Education – Bandung, Indonesia

February 2018 – March 2018

Network Administrator

- Gained hands-on experience with networking fundamentals, including TCP/IP protocols, network topologies, and troubleshooting techniques
- Assisted in configuring and maintaining routers and switches, enhancing network performance and reliability
- Contributed to server administration tasks, including user management, system updates, and performance monitoring
- Learned about firewall configuration and management, helping to strengthen network security
- Developed a solid foundation in IT infrastructure, combining theoretical knowledge with practical applications in a real-world environment

PT Dinamika Tiara Universal – Tangerang, Indonesia

March 2023 – June 2023

Web Development Intern

- Designed the website layout and user interface using modern HTML, CSS, and JavaScript practices to ensure a seamless user experience.
- Utilized responsive web design techniques to make the website fully functional across devices (desktop, tablet, mobile).

EDUCATION

Bachelor Degree of Informatics Engineering, Pamulang University – South Tangerang, Indonesia
